Learn, Share, Connect

Join us to learn about the great work that is going on to improve the healthcare industry, and to share new ideas that will help you transform. The ThedaCare Center for Healthcare Value and the Lean Enterprise Institute join together to present the 7th Annual Lean Healthcare Transformation Summit. The attendees and presenters will include providers, payers, and purchasers who are interested in improving the healthcare system. This is the perfect opportunity for the lean healthcare community to learn, share, and connect.

The 2016 Summit will focus on the three essential elements for sustainable healthcare reform:

- **DELIVERY** of care designed around the patient
- **PAYMENT** and incentives based upon value and outcomes
- **TRANSPARENCY** of performance (quality and cost) throughout the healthcare system.

What to Expect

Participants will see examples, both successes and failures, of care delivery redesign supported by results, examples of payment systems that reward patient value creation, and examples of transparency of performance supporting business intelligence.

Who Should Attend?

- Senior leaders
- Front-line clinical or professional staff
- Physicians
- Managers
- Administrators
- Continuous Improvement professionals
- Business intelligence professionals
- Payers, purchasers, or other healthcare professional involved in or interested in value-based change within their organization and the healthcare industry

Bring your entire team!

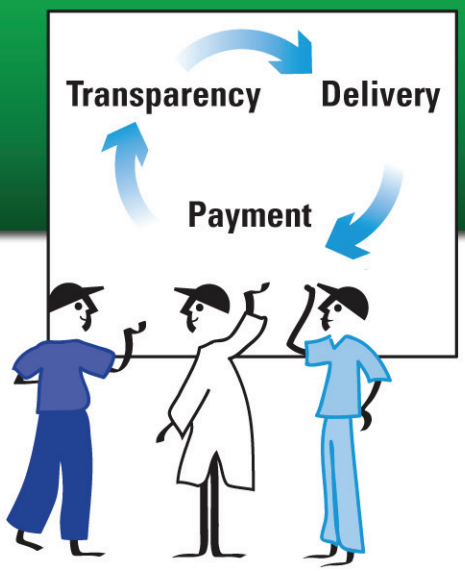
7TH ANNUAL

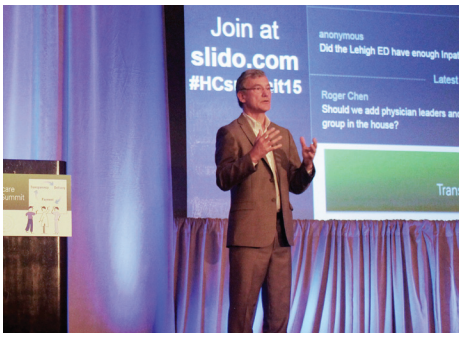
Lean Healthcare Transformation Summit 2016



Expert Keynotes

John Shook, a lean management sensei with 11 years of experience at Toyota in Japan and the U.S. and CEO at the Lean Enterprise Institute

John Toussaint, MD, CEO of the ThedaCare Center for Healthcare Value, who has played an instrumental role in bringing lean principles to healthcare.



Popular CEO Panel Q&A Session

One of the most popular sessions at the Summit, moderated by Mark Graban, offers participants an opportunity to ask questions to CEOs who lead organizations who are on the lean journey.

Learning Sessions

A variety of learning sessions will be offered throughout the 2 days focusing on a variety of topics including care delivery improvements, payment models and experiments and transparency of performance.

Optional Pre-summit Workshops

Enhance your summit experience with optional deep-dive courses. Our education experiences enable leaders to confidently drive the lean transformation of their organizations so they can deliver measurably better value to the patients, families, and communities they serve.

What do attendees think?

"This is my first time attending the summit, and I've been very impressed with the quality & depth of content, presenter and attendee humble mindset and practices."

"This was my first Summit and it was extremely informative, interactive and a great way to network with others. Looking forward to next year."

"This was a really wonderful experience for me. It was a wonderful balance of both the technical and emotional aspects of Lean."

"I am rarely jealous, but left very envious of the extraordinary work, leadership, and analytics."
